Social Mums Book Review

Thank you for offering to write us a book review for our blog series.

We want real mums in business to let us know what they think of some of the latest business books out there.

What we need from you.

We need you to write an honest review of the chosen book.

This should include;

Whether you think the book is well written.

Was the book useful?

What problem did the book help you solve?

Was it what you expected?

Would you recommend it to other mums in business?

The Blog Post

We'll include an intro to the blog post, introducing the author along with a short synopsis, so you don't need to worry about writing that, we're just looking for your opinion on the book.

We'll be including reviews from a few mums in business so we want to keep them short and punchy, around 200 words from you would be great.

Your Details

We'll also include a brief bio about you and your business along with links to your website or social media profiles.

Where to send it all!

Please can you email everything through to hello@socialmums.uk by the deadline stated.

Many thanks.
